

CSIE 1211: Object Oriented Program Design

Hsuan-Tien Lin

Dept. of CSIE, NTU

Course Introduction, February 18, 2013

警告: High Expectations

- goal of NTU OOP class:
as good as the best ones in the world
- tentatively, 6–7 homework sets, midterm exam, final project
(<http://www.csie.ntu.edu.tw/~htlin/course/oop13spring>)
- will have **HW1** next week
- **time-consuming** programming assignments

be prepared to **work hard!**

警告: Strict Instructor

- Will you give me a second chance if I copy homework from other people? **No**.
- Could you let me pass because I will be kicked out by the 1/2 rule? **No**.
- Will you change my score from *F* to *C*? **No**.

be prepared to **follow the rules!**

警告: Uncertain Outcome

- course re-offer after three years (last time: 2010)
- ambitious and willing to **experiment**
—**mixed-English teaching**, for instance
- How many people will not pass?
about 10% last time; somehow each year/class is different and thus **I don't know yet**.
- Will your investment (time) get good return (knowledge)?
No guarantees, but I'll try my best.

be prepared to **take some risks!**

May The Brave Ones Stay

Basic Information

- instructor:
林軒田 Hsuan-Tien Lin (htlin@csie.ntu.edu.tw)
- office hour: after class or by appointment
- course webpage, mailing list:
<http://ceiba.ntu.edu.tw/1012oop> (CEIBA)
- course contents actually in
www.csie.ntu.edu.tw/~htlin/course/oop13spring

Update your secondary email address on CEIBA!

Instructor: Strict but Friendly

- Will you repeat the previous code/slide again? **Yes**.
- Will you discuss with me after class if I don't understand? **Yes**.
- Will you pardon my silly questions? There are **no** silly questions.

Feel free to ask me questions and give me feedback!

- will take $\max(106, 119)$ as the limit:
 - 106: # seats in the classroom
 - 119: # students that 3 TAs can serve
- **priority:**
 - CSIE-major students (including double-major) for **required** course: (guaranteed-0218, lottery-0221, lottery-0225)
 - CSIE-major students (including double-major) for **elective** course: (lottery-0218, lottery-0221, lottery-0225)
 - CSIE-minor students: (2ndlottery-0218, lottery-0221, lottery-0225)
 - non-CSIE students: (3rdlottery-0218, 2ndlottery-0221, lottery-0225)
- auditing: welcomed (to sit) only if there is an empty chair

please think before you choose to enroll

- TAs (tentatively):
 - 何君彦
 - 黃易
 - 林廷舟
- TA email: to be announced
—3 TAs and 1 instructor around, usually faster than sending to individual
- office hours: to be announced

very friendly TAs; ask them more questions!

THE Principle

Taking any unfair advantages over other class members is not allowed. It is everyone's responsibility to maximize the level of fairness.

- eating? fine, but no smells and no noise
- sleeping? fine, but no snoring
- cellphone? fine, but silent mode, and speak outside
- ...

applies to instructor, TAs, students

NO CHEATING

NO LYING

NO PLAGIARISM

very very very very serious consequences

- homework (best * 1.5 + worst * 0.5 + others), midterm, final
- supplementary reference: participation in discussions
- raw score goes through some order-preserving normalization steps
 - raw score 80 with term rank A: possible
 - raw score 80 with term rank B: possible
 - raw score 60 with term rank F: possible
 - raw scores 80, 60 with term scores B, B: possible, but unlikely
 - raw scores 80, 60 with term scores F, B: **impossible**

from the principle: **no individual score change**

Collaboration and Open-Book

- homework discussions: encouraged
- but fairness?
write the final solutions alone and understand them fully
- references (books, notes, Internet):
consulted, but **not copied from**
- no need to lend/borrow solutions

to maximize fairness (everyone's responsibility),
lending/borrowing/buying/selling not allowed

Collaboration and Open-Book

to maximize fairness (everyone's responsibility),
lending/borrowing/buying/selling not allowed

to maximize fairness (everyone's responsibility),
lending/borrowing/buying/selling not allowed

to maximize fairness (everyone's responsibility),
lending/borrowing/buying/selling not allowed

Deal? If your classmate wants to borrow homework from you,
what do you say?

Homework

- students: justify solutions clearly
- TAs: evaluate solutions fairly
- no individual extension unless not violating the principle (e.g. institute-established cases of illness or emergency)
- late penalty:
90% of the value for 12-hour late, 80% of value for 24-hour late, ...

four penalty-free late half-days (金牌) per person

W. Savitch, Absolute Java, 5th Ed., Pearson, 2012

<http://tinyurl.com/oop13textbook>

- please get it as early as possible
- will try to teach most of it

learning to read a textbook is part of the course

Reading Assignments

- weekly
- sections related to what we teach, or sections that are worth reading by yourself
 - we cannot teach all, but with reading you can learn all
- 3-6: 3 hour teaching, 6 hour reading/writing after class

as important as writing assignments:

some may show up in exams

- Mandarin: main language
- English: often encountered
 - teaching ($> 1/4$), coding, website, assignments, . . .
 - important for your future and you are recommended to practice
 - NEW: you need to write your homeworks in English**

don't be afraid of English

Important TODOs

- Update your secondary email address on CEIBA
- Read the policy thoroughly

Enjoy the Class! Questions?
