

# NASA HW10

Deadline: 6/1 (日) 23:59

本作業請上傳pdf or txt檔至 CEIBA

1. Explain the “secure/insecure” options in /etc/exports in you own words.
2. What security issues may incur when using “insecure” option?
3. In early times, running a website over SSL requires a dedicated IP address. Describe why and how it is solved by using SNI (Server Name Indication).
4. Describe what “TLS\_ECDH\_ECDSA\_WITH\_AES\_256\_GCM\_SHA384” in TLS 1.2 cipher suite means.
