Conversational Question Answering

Passage:

Rawls derives two principles of justice from the original position. **The first of these is the Liberty Principle**, which **establishes equal basic liberties** for all citizens. 'Basic' liberty entails the freedoms of conscience, association and expression as well as democratic rights; ... Thus participants would be moved to affirm a two-part second principle comprising Fair Equality of Opportunity and the famous (and controversial) difference principle. This second principle ensures that ...

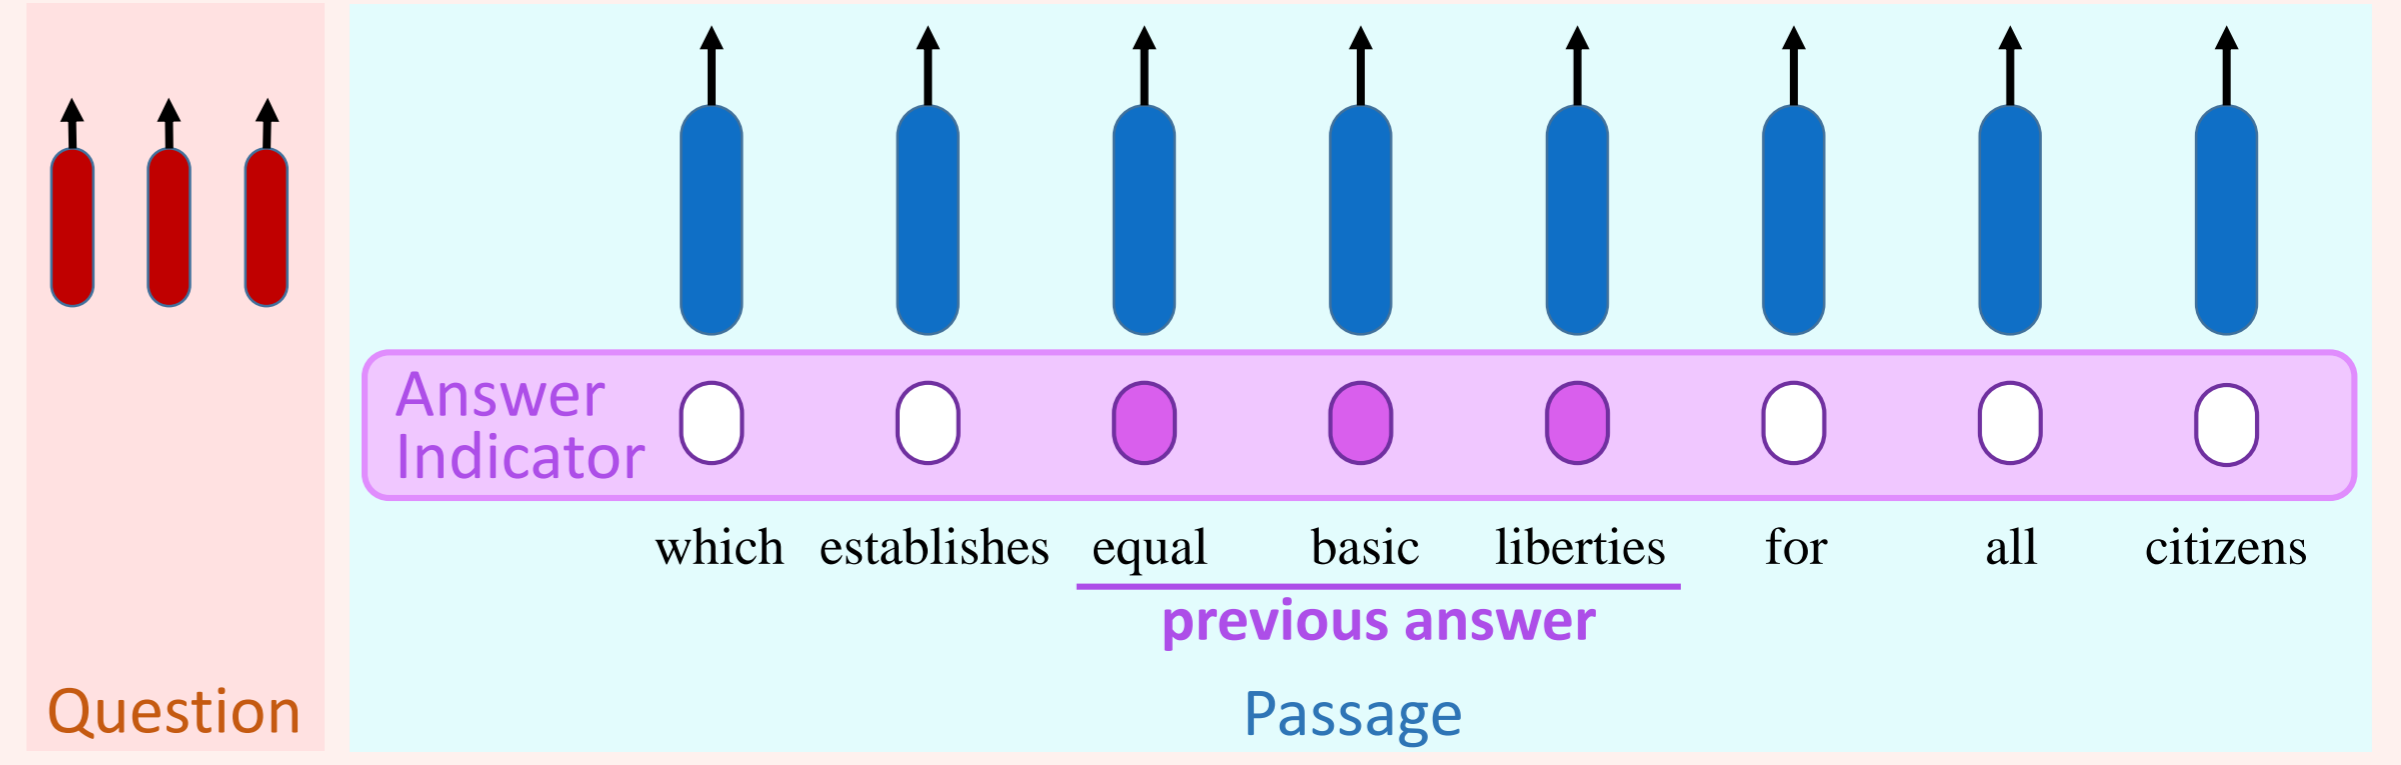

Q: What is the Principles of justice?
A: **The first of these is the Liberty Principle.**

Q: What is the Liberty Principle?
A: **establishes equal basic liberties for all citizens.**

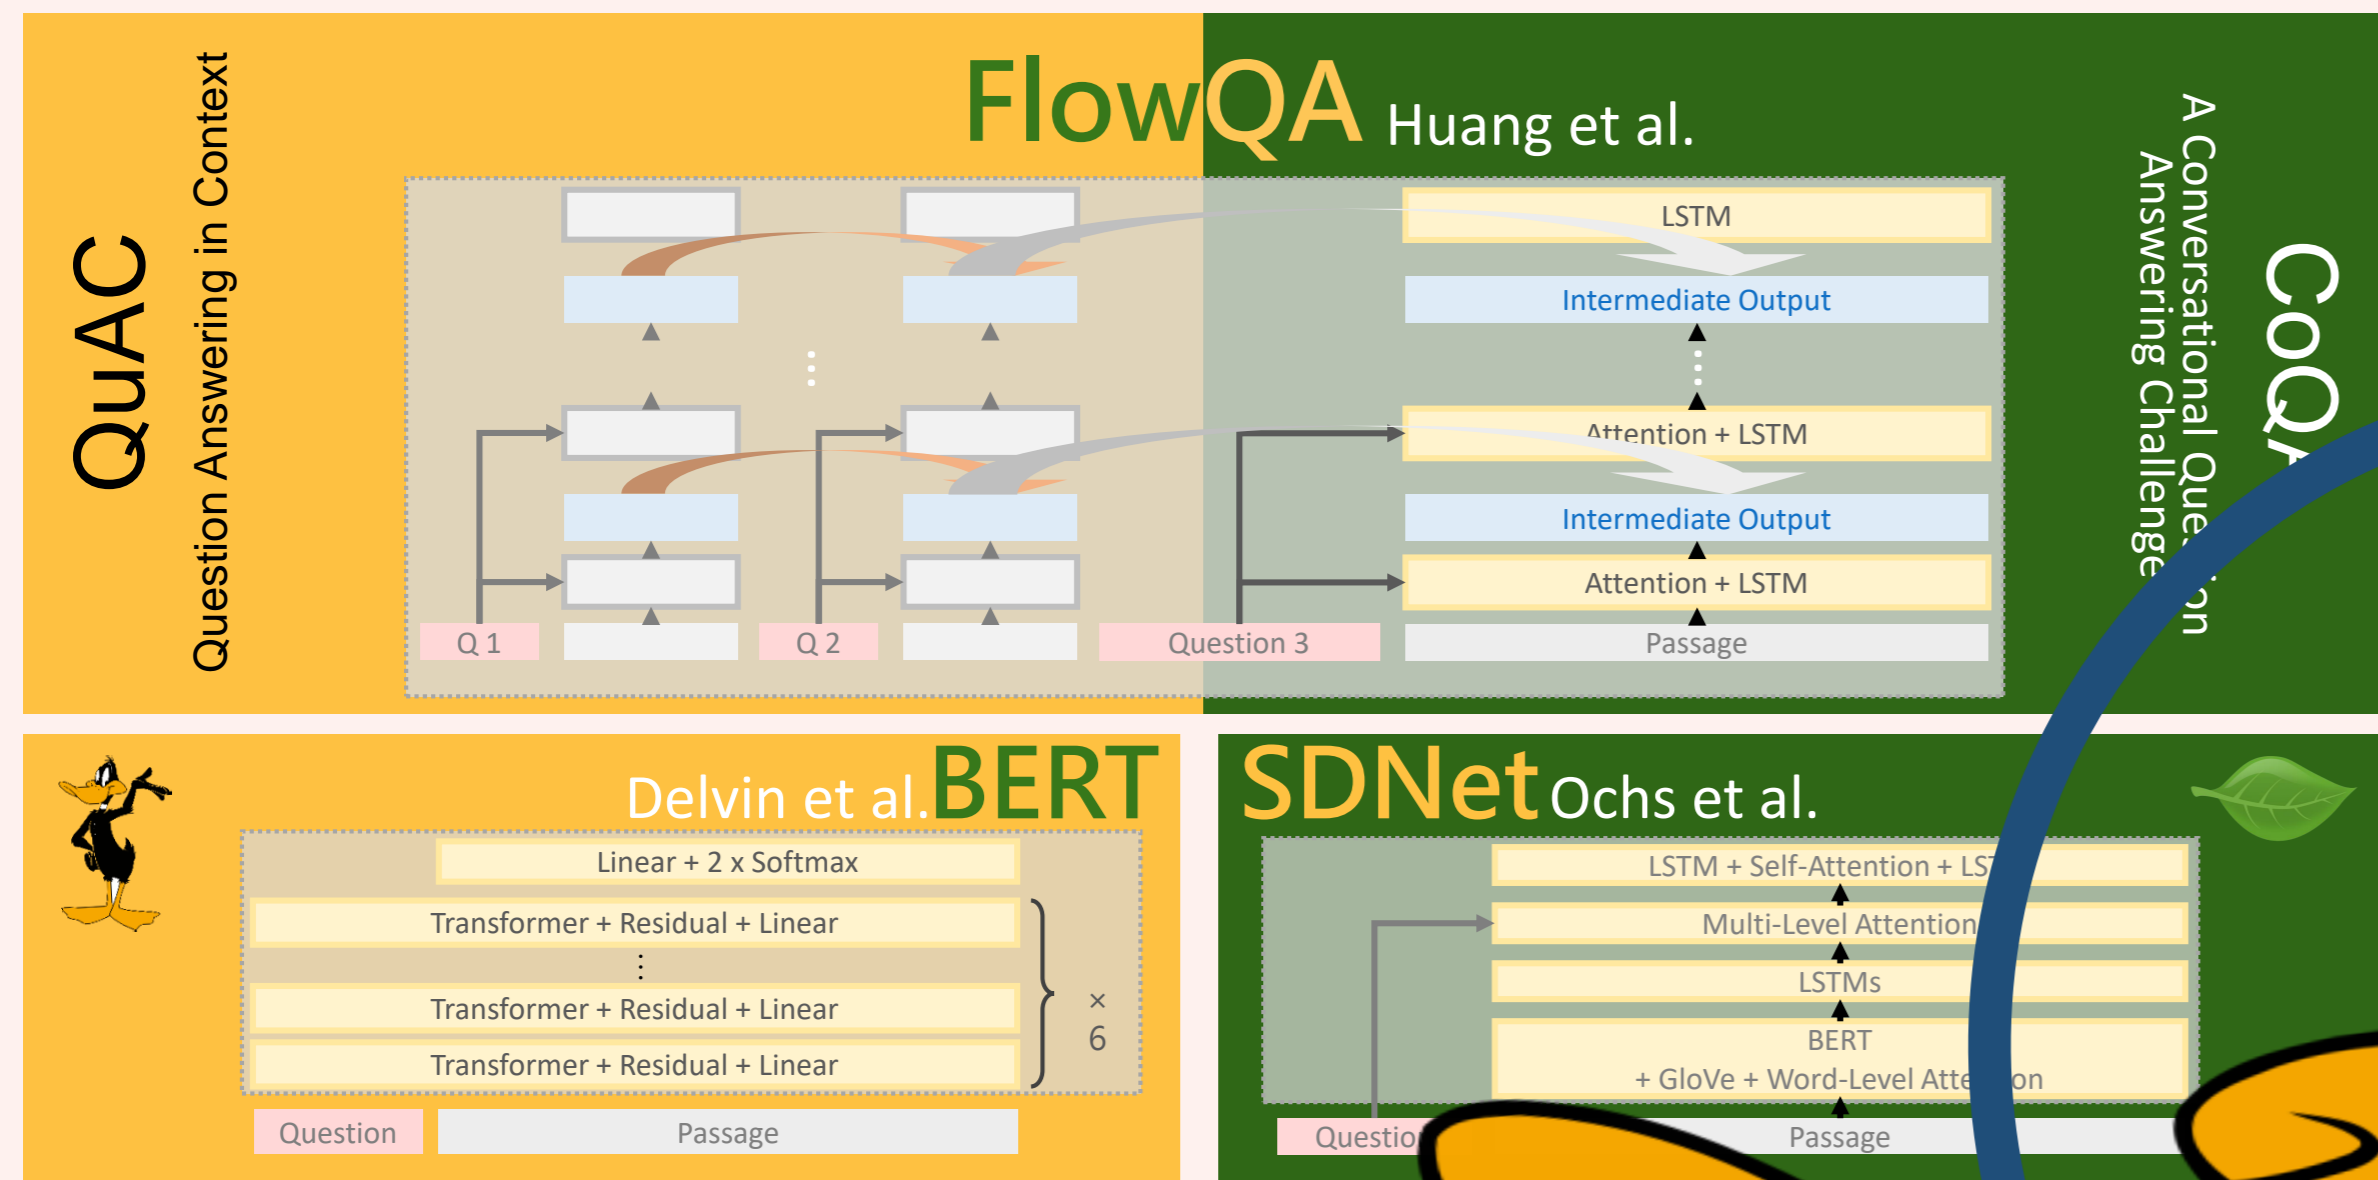

Conversation History

Q: What is **another** principle?

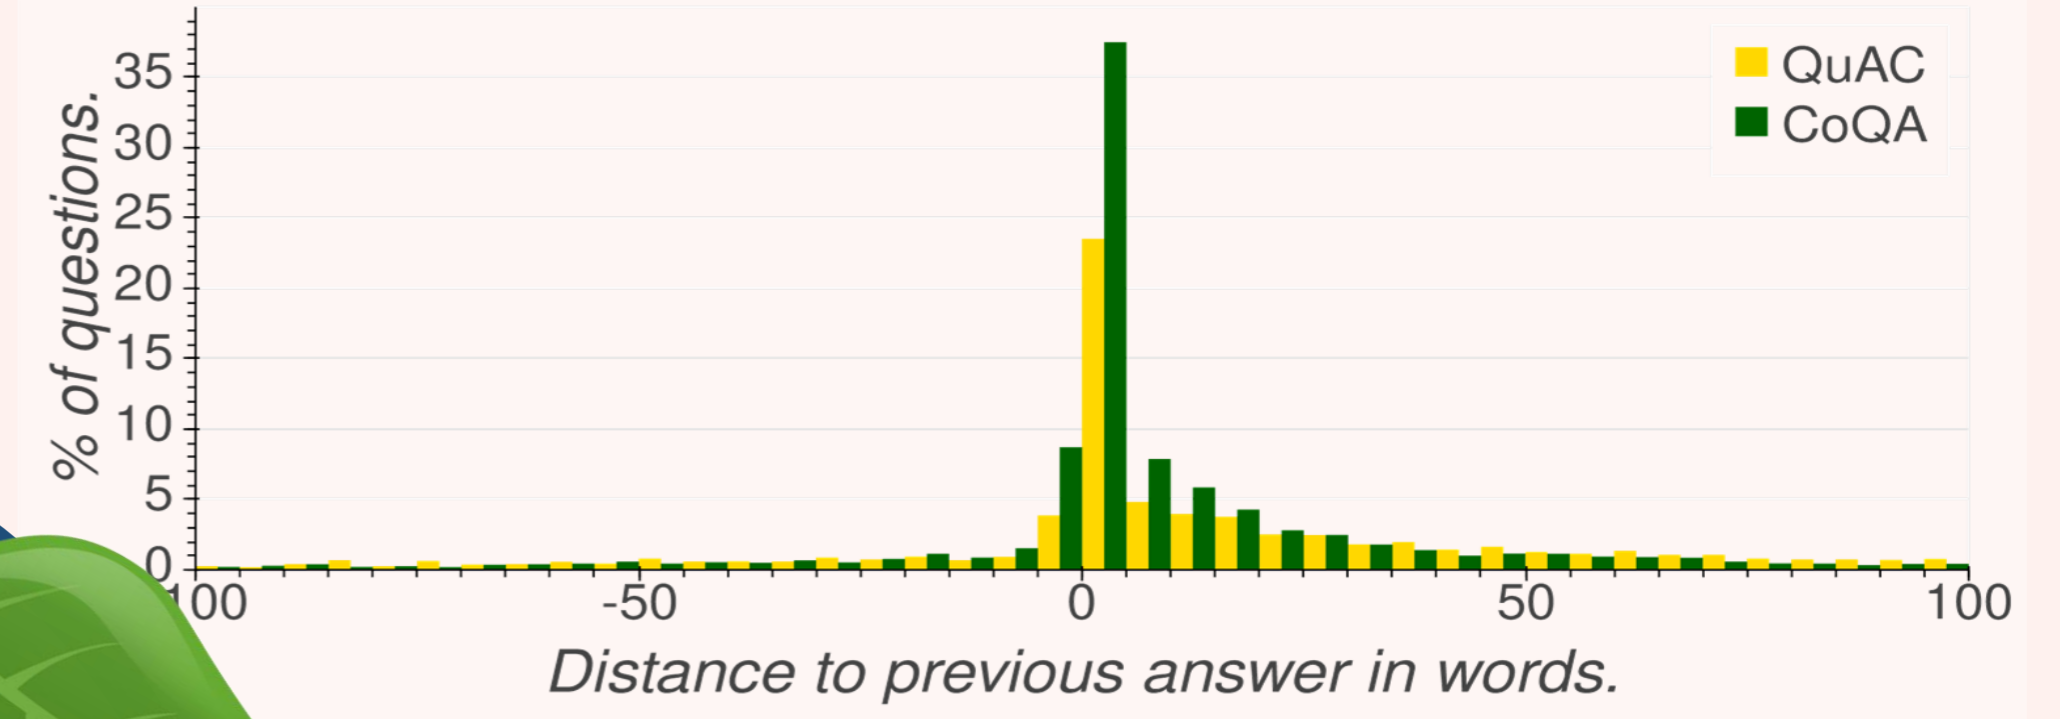

Observation 1: Way of Feeding in History

Datasets and Models Studied

Observation 2: Short Distance between Answers

Example:

The first of these is the **Liberty Principle** (answer 1) which **establishes equal basic liberties for all citizens** (answer 2). 'Basic' liberty .. **1 word**

Can QuAC & CoQA well reflect content understanding?

Do SOTA models understand the content of conversations?

Repeat Attack to Verify It

Increase the distance, but keep the semantics!

Results on QuAC

Conclusions

- Previous models **may not** understand the content of conversations.
- Content understanding is **not** well reflected by current metrics (e.g. F1).
